About the Company

Cheers Visual Communications www.hadassahnoel.com is a steadily maturing digital & communication solutions provider founded in 2010 & located in St. Augustine with a definite vision to provide professional, quality imagery.

We provide our customers visual solutions to communication needs in the form of Photography, Videography and Graphic Design Services.

About the Owner

Cheers Visual Communications was founded by Hadassah Noel an enthusiastic Designer and Photographer with Associate Degrees in Graphic Design, Journalism and Public Relations. She draws from over ten years of experience in the industry and still aspires everyday to renew her learnings and continued appetite for growth.

Hadassah strives to deliver exceptional quality that can be held to international standards of art and creativity whilst catering to the needs of her clients.

Vision

Cheers Visual Communication's vision is to become the premier choice for Visual Communications (Photography & Graphic Design Solutions) in Trinidad and Tobago and the extended region achieved by excellence in all spheres of business.

Mission

Cheers Visual Communications aims to be consistent, relevant and pioneering in our fields of expertise. Filling gaps that the industry is overlooking locally. We want to become the most extensive and creative skill set in the Caribbean for Photography and Graphic Design.

We aim to provide our clients with professional visuals meeting their requests and exceeding their expectations by performing at international standards of the industry.

Maintenance/ Training

After the massive project that your company undergoes to construct and publish a website, the next challenge ahead is deciding whether to maintain internally or externally. We encourage you to choose whichever option works best for your company. Cheers Visual Communications is here to facilitate your organizations needs.

Training

Cheers Visual Communications understands that some clients would prefer to maintain their own website. We will teach you how to update and maintain your website. No HTML or web design experience is necessary; however, it could definitely be an asset. Because it is difficult to determine exactly how long it will take to teach you how to maintain your website, training will be billed on a per hourly basis at \$500/hour. The estimated time required varies depending on the complexity of your website and the skill level of staff, but the average time for training is usually 3-5 hours.

WEBSITE MAINTENANCE PACKAGES

DETAILS	RATES
LOW MAINTENANCE PACKAGES	
Monthly Rate: Up to 2 Updates	\$400
6 Month Special: Up to 12 Updates	\$2200 (Save \$200)
12 Month Special: Up to 24 Updates	\$4400 (Save \$400)

EXTREME MAINTENANCE PACKAGES	
Monthly Rate: Up to 6 Updates	\$1200
6 Month Special: Up to 36 Updates	\$7000 (Save \$200)
12 Month Special: Up to 72 Updates	\$14000 (Save \$400)

CHEERS VISUAL COMMUNICATIONS
CORPORATE

What is considered an update?

An update is any change made to the website. Updates done at the same time (up to 3 items) will count as one update. For example: 1 picture change and 2 pages changes will count as one update. Page additions will count as one update per page.

A charge of \$200 per update will be applied after allotted updates are used.

Maintenance Guarantee

Cheers Visual Communications will guarantee any required updates will be completed within 48 business hours.

Maintenance Packages

What's Included in the Maintenance Packages? Maintenance packages include picture changes or additions as well as page updates or additions. These maintenance packages do not include entire site layout changes. Design layout changes will be determined on a per client basis. Please contact Cheers Visual Communications for a customized quote.

ORIGINAL BRAND

COMPANY OVERVIEW

PROCESS SYSTEMS LIMITED is a provider of Engineering, Sales and Service in industrial process components to the Oil and Gas, Petrochemical and Manufacturing Industries.

Process Systems Limited was incorporated in May 2001. This group of dedicated, persistent and meticulous individuals aim at providing complete integrated solutions, to the process safety systems needs of our customers.

The Company's Service Department currently provides new installation, service and construction for process components and systems, for both onshore and offshore applications. PSL also provides after market support maintenance for all products sold.

The company has an established Health Safety Environment and Quality System that is completely supported by its management and staff, and PSL's unyielding commitment to continuous improvement is further validated by its achievement of the ISO 9001-2008, STOW certifications and Trace certification.

Our primary initiative is to provide the highest level value added service ensuring customer satisfaction while building trustworthy, long-term relationships.

QUALITY K9 Services means Rent-A-Dog K9 Services

Over 20 years of K9 experience and expertise

ABOUT US

Boasting a wealth of knowledge and experience in the K9 business, Rent-A-Dog K9 Services was established to facilitate rental services of highly trained K9's for security purposes.

With over 20 years of professional experience with K9's and trained handlers, we understand the need for K9's in security and train accordingly.

Our K9's are a great extension to security personnel. They function as an extension of the human senses, to raise alertness, defend and assure, physical safety.

Over the years, dogs provided by Rent-A-Dog have served well in assisting security services in Trinidad. Dogs are imported and bred for the specific purpose of security.

CORE BUSINESS

Rent-A-Dog offers a wide variety of over 40 specially trained K9's. With, safety and security as growing issues in our society. Various initiatives are being taken in attempt to promote safer environments for all.

MISSION STATEMENT

To mission is to secure the people and property that we have been hired to protect, while providing quality service at the lowest possible price.

NGC Projects

BUD
THE ABYSSINIA
ACCUMULATOR STATION

The facility has its own Automated Process Control System and an Automatic Shutdown System and boasts of being the first NGC facility with a flare which allows for safe blowout/ burning of gas inventory.

It has a minimum capacity of 12 MMscf/d and a maximum of 200 MMscf/d with the second processing train installed.

TOBAGO
NATURAL GAS RECEIVING FACILITY

UNION
INDUSTRIAL ESTATE PIPELINE

THE PIPELINE SYSTEM INCLUDES:

- 24" diameter pipeline originating from a 24" valve on the 56" CIP at Pablito Trace near Grant Trace, Rousillac.
- High Density Polyethylene (HDPE) pipeline to supply gas to small customers on the La Brea Industrial Estate.

- A Gas Metering station at UIE with facilities for condensate removal, to control the flow of gas and to measure its pressure, temperature and volume, two automated control rooms, a slug catcher (which removes liquids from the gas), separators, meters, pigs, pig launchers and condensate storage tanks.

UNION
INDUSTRIAL ESTATE PIPELINE

04/10/2012

ABOUT THE PIPELINE TO TOBAGO

- First gas was received in Tobago on 2nd November, 2012 at 5:20 pm
- Size: 12" in diameter
- Water depth: 24-92m
- Length: marine segment- 54km
- Capacity: 119 million cubic feet per day (mmcf/d)
- The pipeline can supply 119 MMscfd of gas per day based on a supply pressure of 850 -900 psi (pounds per square inch) at the BHP Billiton GEP

NATURAL GAS PIPELINE TO TOBAGO

BUD
THE ABYSSINIA
ACCUMULATOR STATION

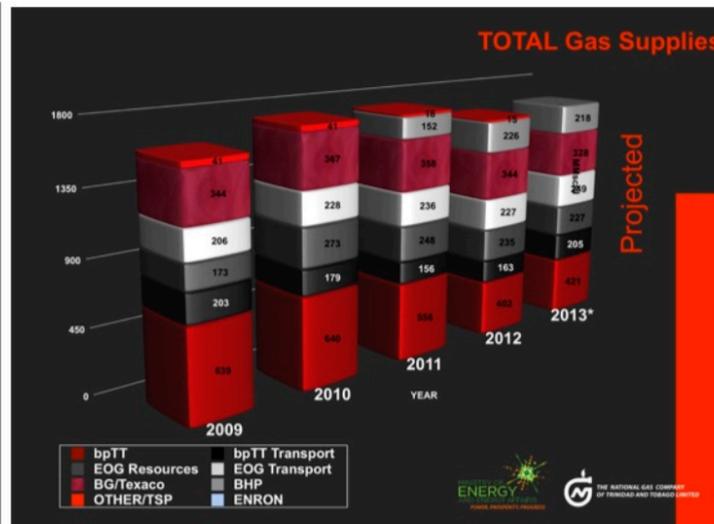

The New Abyssinia Accumulator was commissioned in 2005 as part of the Beachfield Upstream Development Project (BUD).

ACCUMULATOR STATION

The facility has its own Automated Process Control System and an Automatic Shutdown System and boasts of being the first NGC facility with a flare which allows for safe blowout/ burning of gas inventory.

ANNUAL TECHNICAL MEETING 2013

TIP 1: REDUCE, REUSE, RECYCLE

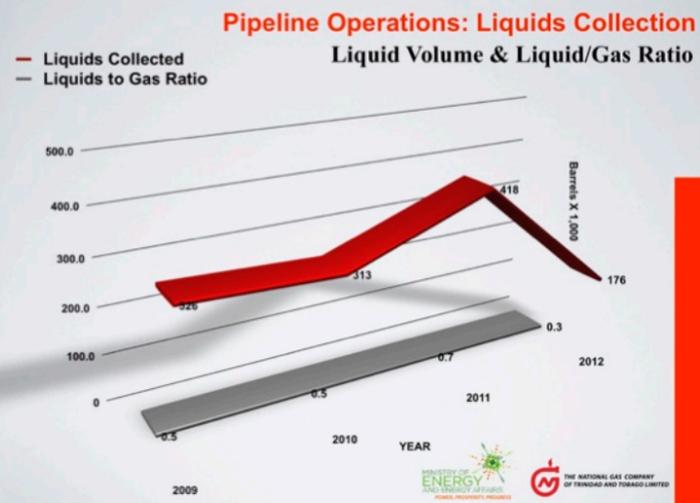

Whenever you can, **RECYCLE** paper, plastic, newspaper, and aluminum cans.

TIPS TO REDUCE GLOBAL WARMING

TIP 4: PLANT A TREE

If you have the means to plant a tree, start digging! During photosynthesis, trees & other plants absorb carbon dioxide and give off oxygen.

TIPS TO REDUCE GLOBAL WARMING

ISSUES AND CHALLENGES

- Supply**
 - Restrictions in supply hinder NGC's ability for gas volume optimization
 - Strategy for usage of accumulated royalty and banked gas
- Market**
 - Loss in market to customers to be considered
- Contract Renewals**
 - Shorter term for consideration
- Gas Pricing**
 - Are past margins realistic
 - Re-evaluation of the pricing strategy
 - Review efficiency of plant program vs request for low gas price
 - Shale gas threat for both LNG and petrochemicals

CHANGE A LIGHT BULB

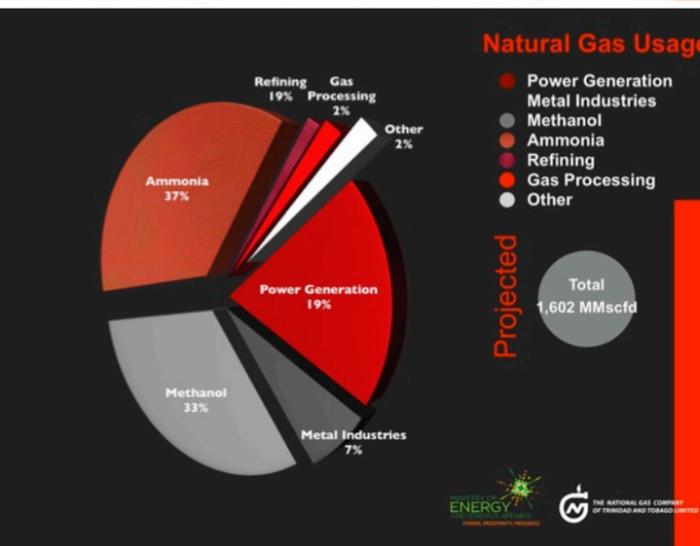

TIP 2

TIPS TO REDUCE GLOBAL WARMING

TIP 4: PLANT A TREE

A single tree will absorb approximately one ton of carbon dioxide during its lifetime.

TIPS TO REDUCE GLOBAL WARMING

Functions of the COMMERCIAL GROUP

- CONTRACT OPTIMIZATION:**
 - Gas Purchases: BPTT, BG, BHPEOG, Repsol
 - Gas Sales: 11 ammonia plants, 7 methanol plants, Power, Metals, Other (TCL, Petrotrin)
- Asset Management**
- Business Development**
- LNG Marketing**
- Light Industrial Sector (LIC)**

TIP 3: DRIVE LESS & DRIVE SMART

Less driving means fewer emissions. Carpooling is an option that cuts fuel costs. Ensure your car is running efficiently. Inflated tyres improve gas mileage by 3% +.

CARPOOL

TIPS TO REDUCE GLOBAL WARMING

TIP 5: USE THE "OFF" switch

Turn off the water when you're not using it. While brushing your teeth, washing your car turn off the water until you actually need it. Reduce water bills & conserve a vital resource.

ENTERTAINMENT

Think it not strange that the land of fete can produce music as classical as it gets. Left is a photo of the Marionettes Choir, a well established locally trained group. Be sure to see them perform West Side Story at NAPA this week. Look out for more plays by CC.

The national Symphonium and the Exodus chorale unite every Friday at NAPA to produce one hour of intense, breathtaking music. Not only will be entertainment excite you but the Wonderful grounds and general ambience of the NAPA will make you feel that you are in the world's greatest theatre.

- Accredited and Non-accredited Health and Safety awareness training promoting safe systems of work (risk assessments, manual handling, stress management, COSHH etc)
- Workshops, Safety inductions....
- First Aid/HSE (four-day) Course; HSE First Aider Refresher/Re-qualification

OBJECTIVES

We as a team understand the complexity of the realm of Health, Safety, Security and Environmental issues as they spiral throughout every organization's daily activities and know that in many cases this department may be overlooked as a direct contributor to the company's profit margin, leading to a declining safety performance overall. We take the responsibility 'off the shoulders' of our client and systematically ensure that fundamental regulatory requirements of every project are in alignment with the Occupational Health and Safety Act 2004, as amended as a minimum. This will occur in stages, with the overall outcomes and timelines formulated into a project schedule and presented to the client for their approval prior to the execution of the project.

Method:
The HSE Clarity Company Ltd prides itself on exceeding all expectations of the client by delivering cost-effective services, performed by highly qualified and experienced professionals and delivered in a timely and professional manner. More

evaluation team (depending on contractual requirements) to review our client's policies, operating procedures and work packs, complete with all the necessary documentation as related to HSE. Feedback will be provided in a timely manner, specific to the request of the client. We will also assess the needs of the safety labour requirements and provide you with the most appropriate team the suites the stage of your organizations growth and development. All our execution teams, no matter company size will be appointed a senior HSE professional to whom they report, ensuring that the gap of experience is always bridged.

Should an incident occur, our respective representative(s) will thoroughly investigate the event and present accurate findings to the Managing Director or his appointed, within one (1) hour of the actual commencement of the investigation. *Note: All conclusive data shall be maintained with the strictest confidentiality. The final report will include a Root Cause Analysis that gives our client the 'first-hand' opportunity to realize

corrective actions, supported by an optional work plan for remediation will be provided with the involvement of members of the client's team. Further, the client has the option of utilizing our readily available service for the execution of the remedial plan.

CORPORATE PROFILE

OBJECTIVES

CORPORATE PROFILE

Previous contracts include but are not limited to the following:

Provision of a health and safety package to Murphy Petroleum Services Company Limited in 2009, where our team continues to monitor their safety management system from an audit and correction perspective on a monthly basis. We have also guided the said client through to a successful and safe completion of their involvement in the Methanol Corporation's Methanol Plant full plant shutdown in the Point Lisas Industrial Estate. Murphy Petroleum's contribution to the shutdown was limited to the overhauling of two of the main turbines, which proved to be no simple task in terms of managing risk throughout the job. Murphy Petroleum completed the job successfully with no injuries, accidents, or lost-time cases.

We have also provided professional support services from planning to the execution phases to British Gas Trinidad and Tobago Limited for numerous projects throughout their seven assets. To mention a few - East Coast Marine Area (ECMA) - 2a Dolphin Infill BGT/Chevron Drilling Programme; Capex and Debottlenecking Projects which involved full facility shutdown of operations to facilitate upgrade work within both the Dolphin Platform, Hibiscus Platform and the Central Block operating facilities.

We have also been involved in several projects for BPTT LLC both onshore and offshore at senior levels within strategic planning and execution teams for the New Oil Export Line (NOEL) Project; BPTT Bombax Pipeline Project; BPTT/FUGRO Geotechnical Equipment Salvage Project and the BPTT/Dolphin Drilling - Catfish 1 Deepwater Exploration Project, simultaneously, and HSE Clarity

Company Limited, through South-M, was responsible for managing all aspects of HSE for Phase 2 which is between Phoenix Park and Pierre Road in Chaguanas and Phase 3, which is between Pierre Road and Caroni. The NGC managed this project on behalf of the Government of Trinidad and Tobago and at South-M's completion, the team contributed over two million man hours without a Loss Time Incident.

These are just a few of the more prominent efforts in terms of scale and diversity which have exposed HSE Clarity Company Limited to the un-ending possibilities of the market's in the construction and energy sector, upon which extremely high standards and benchmarks have been set for the future development of the organization.
